

A Place Where Your Child Can Learn!

*"...at some point there has to be
an end to mediocrity...
High standards do not set children
on a path to failure.*

High standards set our children on the path to success."

Former President: George W. Bush

MISSION STATEMENT

Our mission is to develop young children minds spiritually and with a sense of understanding and compassion for learning along with the courage to believe in themselves.

At Tabernacle Christian Center Academy we believe in the Holy Scriptures and the eternal Godhead. We are dedicated to the highest academic and behavioral standards. The A.C.E. Curriculum is an approach to Christian education that keeps learning lively, interesting, and memorable. It sets the standard of education excellence.

We believe in working cooperatively with parents to create a culturally rich, safe, positively charged learning environment that is relevant to the lives of our students. We will nurture each student to develop spiritually, academically, and socially.

Our goal is to provide every opportunity for our students to grow spiritually and socially to reach their highest potential. To empower them to achieve their goals and dreams in their life's journey.

PHILOSOPHY

We believe the Bible is God's Word in which we find principles, truth, and directions for daily living which are taught and followed in each classroom. We believe that all people are created equally by God; therefore we do not discriminate against religion, race, sex, color, physically challenged, ethnic or national origin.

HIGH STANDARDS IN EDUCATION

Although there are many choices in education today, we at Tabernacle Christian Center Academy have found the A.C.E School of Tomorrow program has the best curriculum that would help our students to reach their potentials. Choosing A.C.E. will give your children an education that provides Biblical principles with Scripture, academic excellence, character training, and spiritual growth. A.C.E. curriculum reflects high standards and is build on the Biblical foundation that will prepare your child for the world today and give them the tools necessary to succeed in the future.

Accelerated Christian Education meets the academic needs of children and provide Godly character training. A.C.E. trains young people academically and focuses on God's plan for each individual child. Through its Biblical, individualized, self-instructional, mastery-based program, children are growing academically and spiritually.

Accelerated Christian Education's concepts are based on the following Five Basic Laws of Learning:

- A child must be at a level where he can perform.
- He must have reasonable goals.
- His learning must be controlled, and he must be motivated.
- His learning must be measurable.
- His learning must be rewarded.

Based on these principles, the A.C.E. curriculum assures parents of:

- A solid, mastery, back-to-basics education for their child.
- A course of study diagnostically individualized to meet a student's specific learning needs and capabilities.
- A program incorporating Scripture, Godly character building, and wisdom principles.
- A curriculum using advance computer-technology to help ensure the fines education possible in today's high-tech climate.

Individualization

A student entering the Accelerated Christian Education curriculum for the first time is given a diagnostic test to determine his precise educational performance level. These tests also identify learning gaps. The student is then prescribed academic material to strengthen his specific weaknesses. He succeeds because he receives curriculum that meets his needs and then challenges him to achieve to a higher academic performance level. Learning is constant, and time is the variable. Every child is able to learn at his own rate, and he is able to master the material before moving ahead.

Mastery Learning

In the Learning Center, each student moves ahead only when he has demonstrated mastery. Because each child builds upon concepts he fully understands and progresses when he is academically prepared for the next step, his knowledge and skill retention improves. Mastery is foundational for future learning and leads to academic achievement.

Character Building

More important than academic success is character training that prepares students to meet challenges and opportunities in today's world. Accelerated Christian Education embeds sixty character traits into the curriculum and presents role models who display and uphold high standards of personal character strength.
